POWERFUL CORROSION PROTECTION & SUPERIOR LUBRICATION

- ✓ Multi-Purpose
- ✓ Eco-Friendly
- ✓ Easy to Apply
- ✓ No Solvents
- ✓ Longest Lasting Performance

H. Clausen
AKSJÆLSKAP

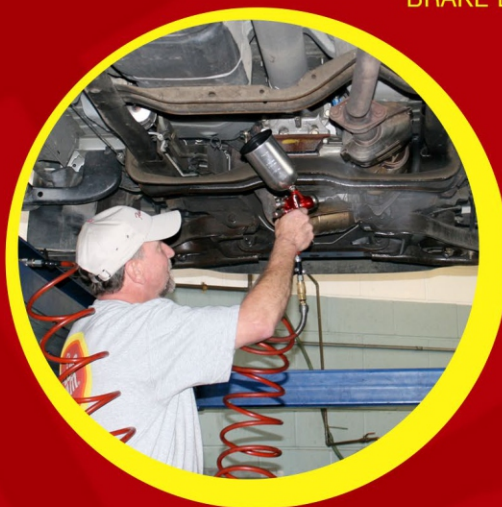

Tack-free Lubrication

REDUCES FRICTION NOISE

Use Fluid Film® on hinges, locks, door panels, excellent vehicle "No Drip" undercoating, battery terminals, motorcycle and bike chains, seat tracks, hood and trunk latch, T-Top levers, release agent for mud and rubber, stops insects and contaminants from sticking, repels brake dust, garage door runners, rejuvenates and protects paint, nuts, bolts.

LUBRICATES ALL MOVING PARTS.

EXCELLENT AT PREVENTING
BATTERY CORROSION AND
BRAKE DUST BUILD-UP

KEEPS DIRT AND MUD
FROM STICKING TO
METAL SURFACES

INSTANTLY STOPS
SQUEAKING BY
LUBRICATING
MOVING PARTS

EXCELLENT VEHICLE
UNDERCOATING,
PENETRATES METAL PORES

STOPS & PREVENTS
CORROSION FROM
SALTS, CALCIUM
CHLORIDE AND MOISTURE

LONG LASTING - ALWAYS ACTIVE

Fluid Film® stops and prevents rust on contact. Fluid Film® creates a non-drying barrier that moisture cannot penetrate. This slick barrier of protection also provides long lasting lubrication for all moving parts. Lanolin based Fluid Film® resists water wash-off, will not harm paint, plastic, or synthetic rubbers.
