Operator's manual

Thank you for choosing the **LiteWrapperXT®**, the ergonomic hand wrap system.

Our hope is that it will give you many years of productive service. This system is designed to stabilize your pallets fast, easy and at low costs. Together with the special formulated XT Coreless stretch film you will achieve to best result.

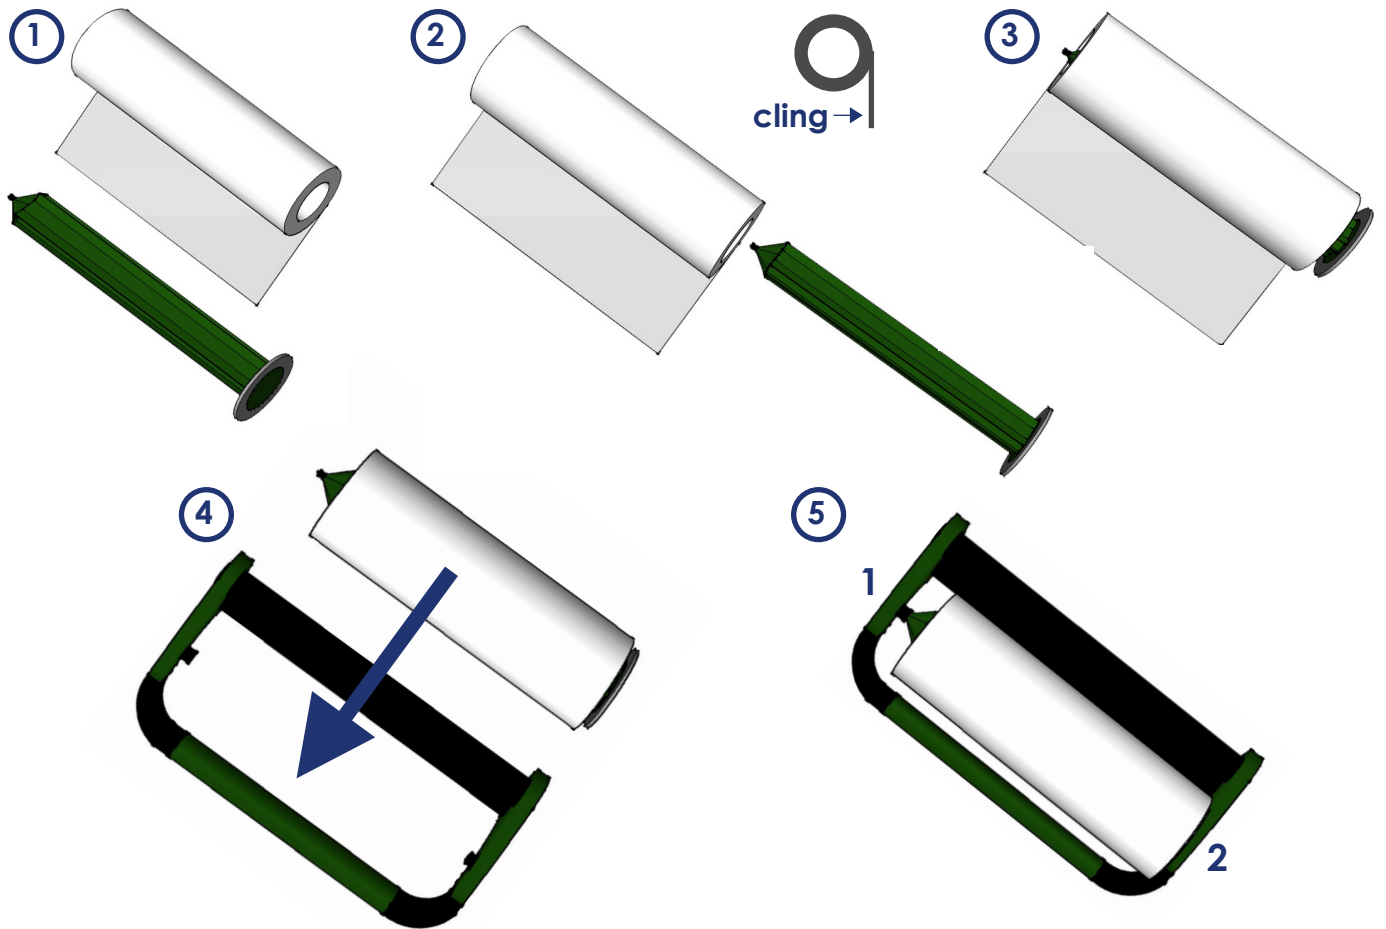

Consult your packaging distributor to advise the best type of film for your application. Please read and understand this manual before operation.

A video explaining the system is on our website www.litewrapperxt.com
